

INDIAN EDUCATION

[Indian Education](#) provides many services for MPS Native students and families. A few examples include:

- [Support for Instruction](#)
We work with teachers and schools to help them become more familiar with the best ways for Native students to learn. We do this through professional development opportunities for teachers, but also through one-to-one relationships. We also develop culturally relevant and engaging curriculum and materials for use in schools.
- [Support for Family Involvement](#)
We provide resources and support for opportunities throughout the year, like Connecting Parents to Educational Opportunities, parent trainings and parent circles.
- [College Readiness](#)
Our counselors work with Native students on college planning steps, personal awareness and academic preparedness. They do this by meeting with students in groups and individually, facilitating college field trips and assisting with financial aid and tribal enrollment processes.
- [Advocacy for Families](#)
If a Native student is experiencing a problem at their school, Indian Education will work to help resolve the issue.

Our Mission

Improve Native Student achievement and graduation rates through academically rigorous culturally responsive instruction, family and student engagement and collaborative partnerships with schools and community.

Our Vision

All American Indian students are empowered as lifelong learners to become fully engaged leaders, stewards and citizens.

We are located at:

Davis Center

1250 W. Broadway Ave.
